## OPEN LETTER

**V.T Technical Equipment Joint Stock Company** was established on May 15, 2015. This is the convocation place of **engineers who are passionate about conquering the high-techmedicalequipment field**. By having a **meticulous process of building teams and devotion to our services**, taking **credibility and commitment to quality as a moral compass** for our development. Our company has recieved more and more **approval from our clients**.

Apart from independently advancing in our own direction, the V.T community also aspires to share our **knowledge, experience, wisdom, and talent** with like-minded units to contribute to the growth of the medical equipment field,more especially in field of **Diagnostic Medical Imaging Equipment**.

**V.T guarantees a win-win mindset in serving** society, our partners, suppliers, and customers to cooperatively have **sustainable and long-lasting development**.

**General Manager**

**Đặng Quốc Việt**

# VISSION

PROTECT LIVES - PROTECT THE ENVIRONMENT

V.T provides technical solutions to:  
Help "Protect lives  
Together "Protect The Environment"

# MISSION

## PROVIDER

V.T is the provider of technical solutions relating to medical equipment.

## TRAINING

V.T trains technical personnel supply and assign solutions to its partners and share the organization's vission.

## BRIDGE

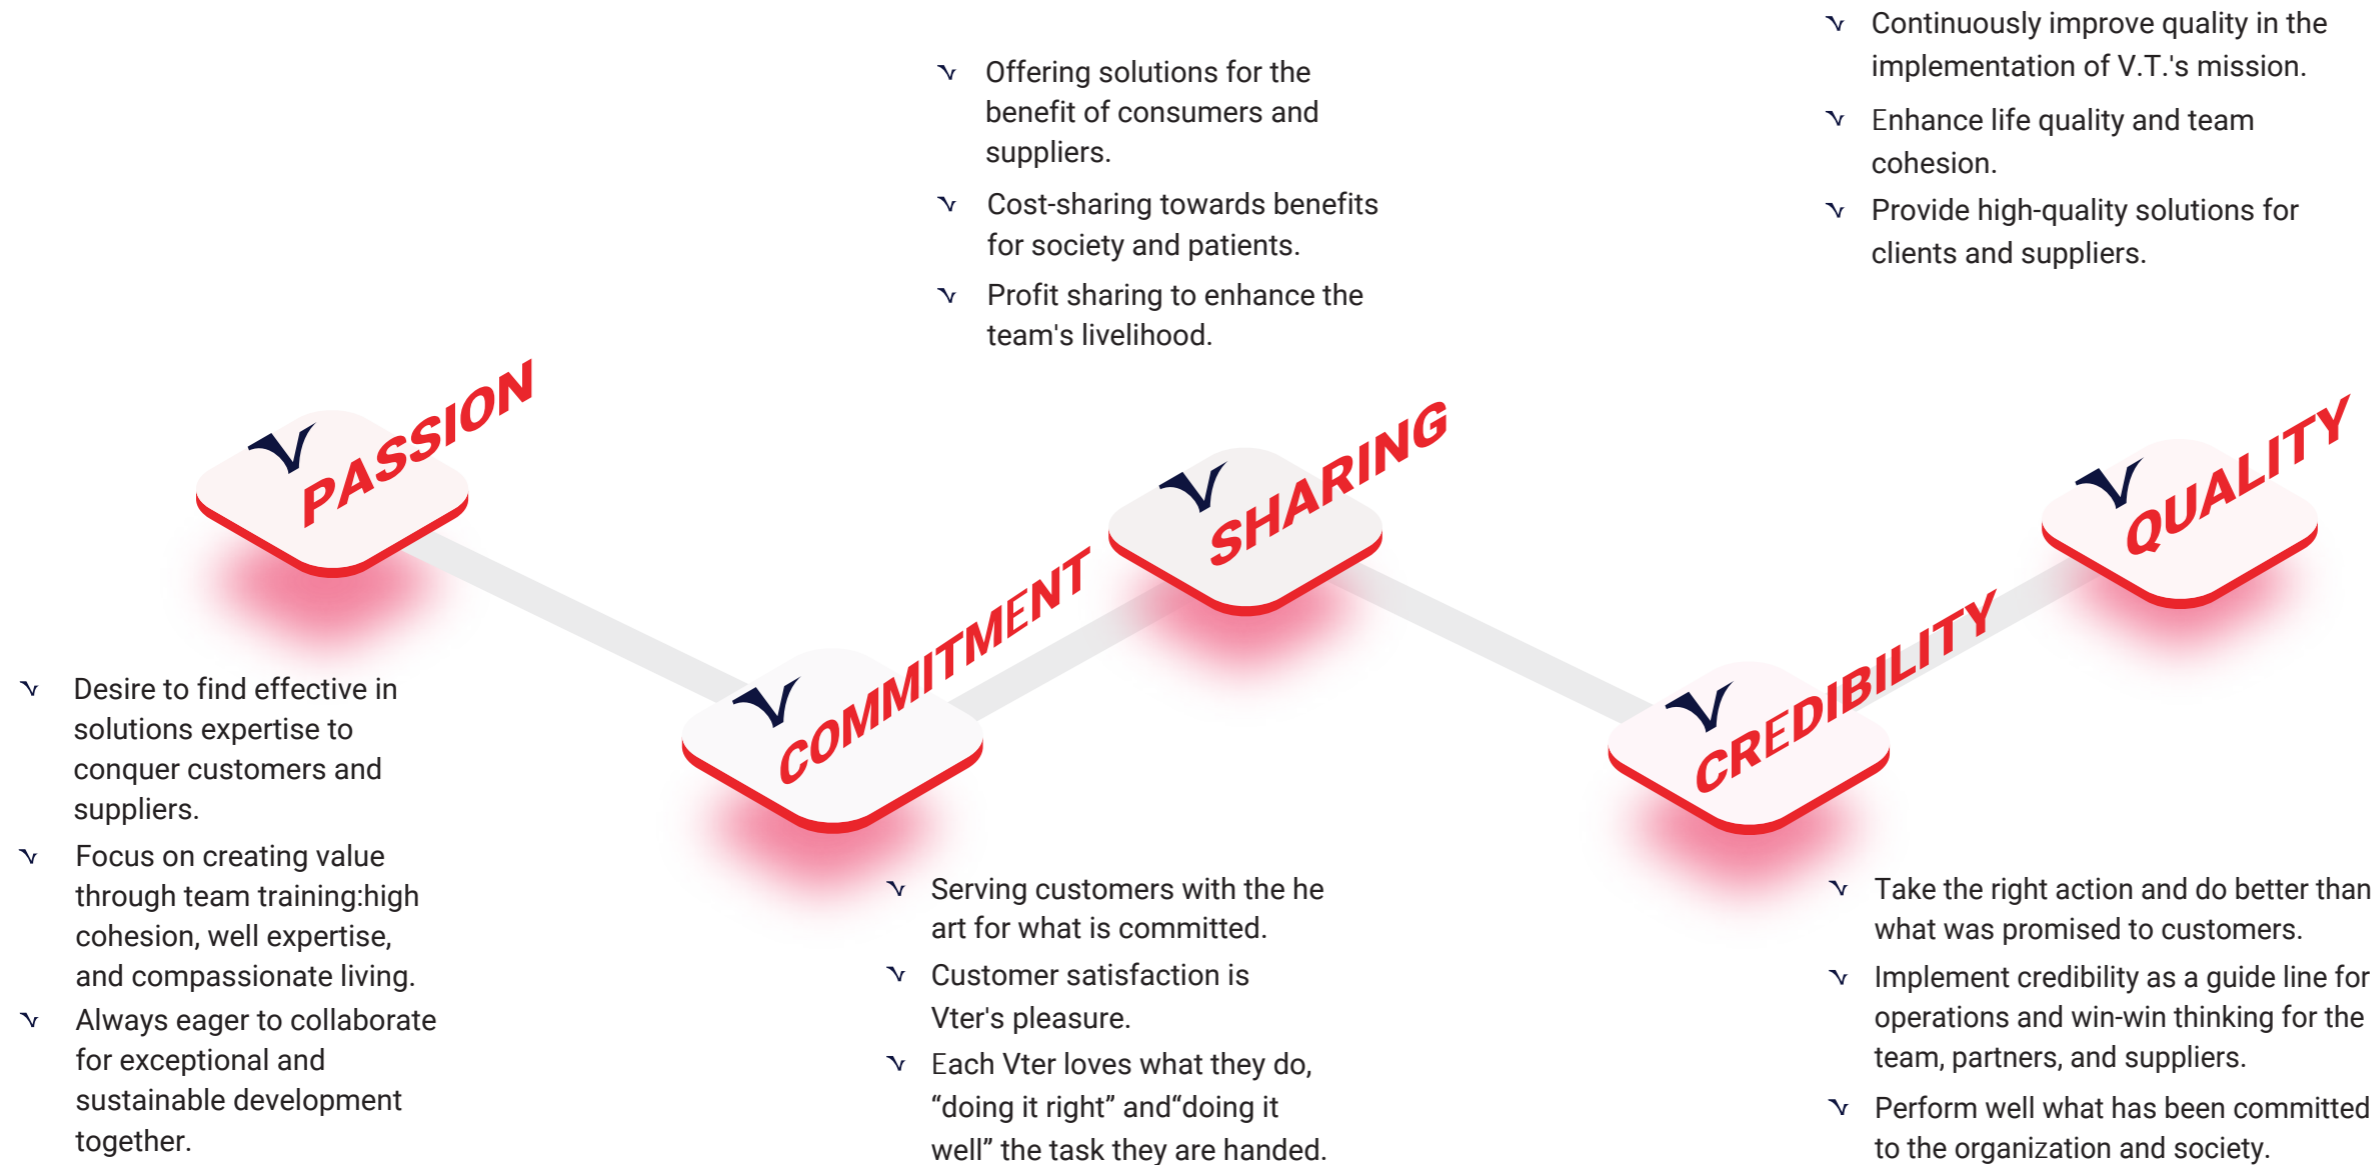

V.T is the third party, a bridge between-manufacturers and users.

## CONNECTION

V.T acts as a link for cohesion with businessentities, specialists in the same filed to ensure the vigorous and stable growth of the medical equipment domain.

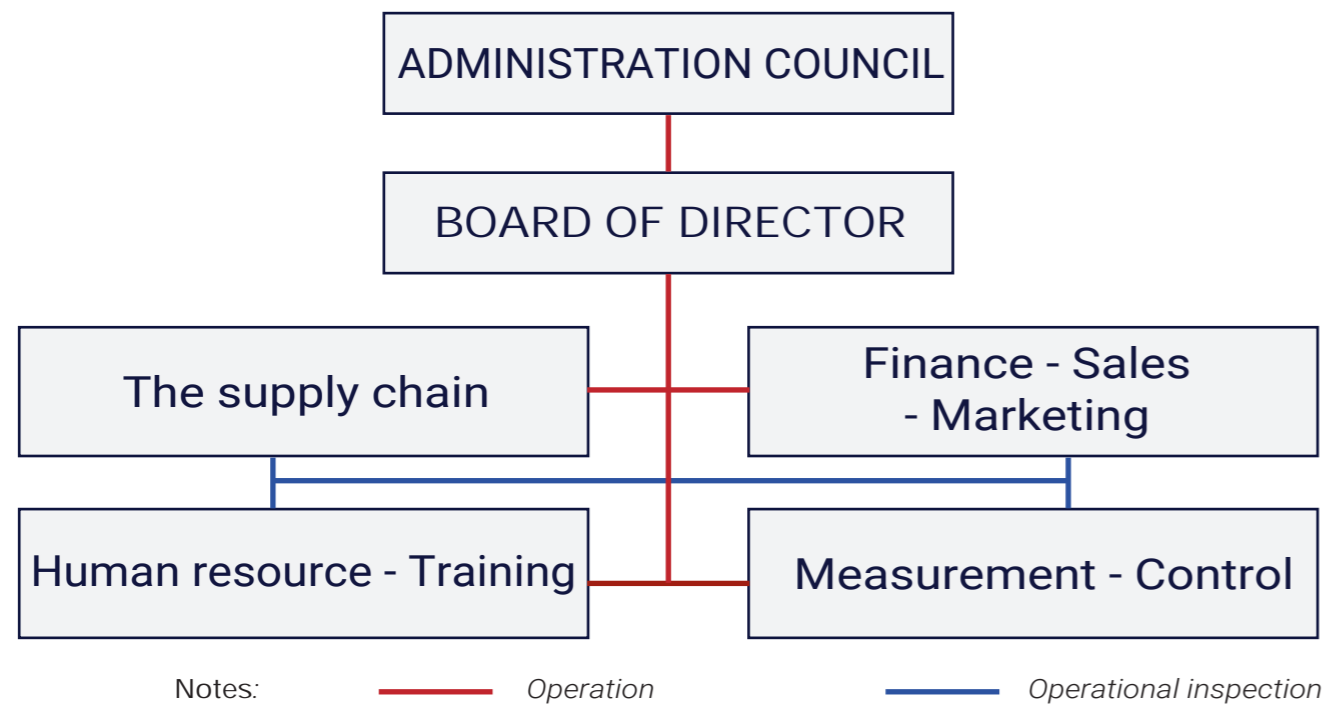

# CORE VALUE

# ORGANIZATIONAL STRUCTURE

# WHY CHOOSE US

**All of the technical services of V.T technical company:**

Are executed by our conscientious, skilled, trust worthy, and passionate technical crews.

Provide services at a reasonable price to customers.

Come with tools and equipment to be more proactive in projects.

Are served by workers who are passionate about their profession.

Have available spare parts and components to quickly respond to customer demands.

Operate on ISO 9001:2015 and ISO 13485:2016 quality management systems.

Certificate VN22/00000297

The management system of

# V.T TECHNICAL EQUIPMENT JOINT STOCK COMPANY

244 Bui Van Ba street, Tan Thuan Dong ward, district 7, Ho Chi Minh City, Viet Nam.

has been assessed and certified as meeting the requirements of  
**ISO 9001:2015**

For the following activities  
Trading and providing maintenance services for diagnostic imaging equipment  
Design, producing and installation of Radio Frequency (RF) shielding for MRI room

This certificate is valid from 16 August 2022 until 16 August 2025 and remains valid subject to satisfactory surveillance audits.

Issue 1. Certified since 16 August 2022.

# ADVANCED TRAINING

## INTERN

6 month - 1 year

Familiarizing yourself with the job: researching materials, learning through real-life practices under the instruction of level 2 (or above) engineers, and getting to know the job's procedure.

## LEVEL 1

1 year - 2 years

Working under the instruction and examination of higher-ranked engineers. Follow approved work procedures.

## LEVEL 2

2 years - 3 years

Senior engineer: Giving solutions to execute the word, providing, instruction and training interns and level 1 engineers, taking responsibility for assigned implementing technical duty.

## LEVEL 3

3 years - 5 years

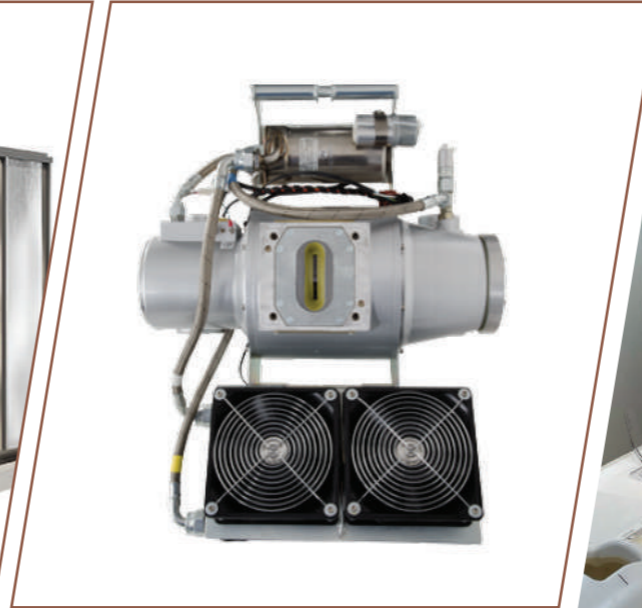

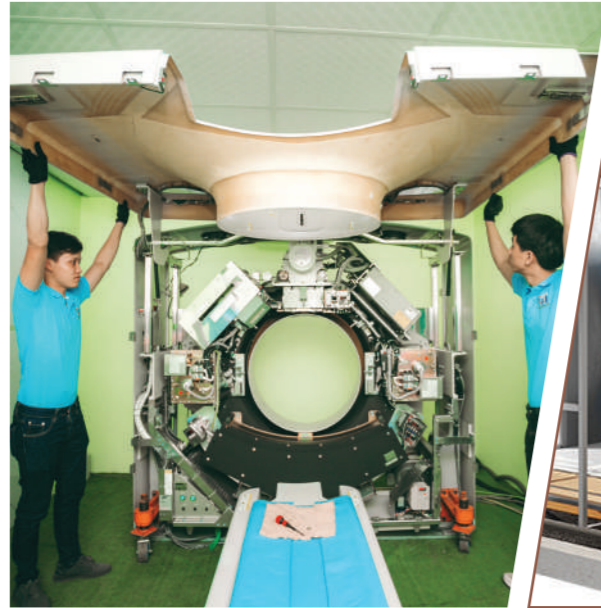

Taking specialized responsibility for the work that you are in charge of having the ability to decide and approve projects or solutions of level 2 engineers. Giving technical consultations to customers.

## LEVEL 4

5 years - 10 years

Specialist: Giving technical-consultation customers. Determining the direction of technical growth, giving clients expert consultation in order to find solutions.

# PRODUCTS & SERVICES

**1 TECHNICAL SERVICES - EQUIPMENT CARE**

- Maintenance services
- Inspection and repair services
- Dismantling, packing, moving, installation, user manual services

**2 DESIGN, MANUFACTURE, INSTALLATION, AND REPAIR RF SHIELDING ROOM**

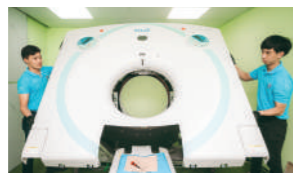

**3 COMPONENTS & SPARE PARTS**

**4 MEDICAL DEVICES - CONSUMABLES**

**5 INVESTING, RENTING - TECHNICAL CONSULTANT**

## 1 TECHNICAL SERVICES - EQUIPMENT CARE

**1.1 Maintenance services**  
is a service that maintains the stable equipment operation by detecting and correcting irregularities in a timely manner, assess the condition of wear and tear incurred in use in order to have a prompt backup plan and reduce downtime. Ensure equipment working properly, safely and efficiently. Service packages that are included:

- The basic maintenance
- The intensive maintenance
- The full maintenance
- The special maintenance

**1.2 Inspection and repair services**  
Is a service to check and evaluate the problem situation, fix it and bring the device back to normal, accurate and steady performance.

- Checking and correctly evaluating the errors. Finding the source of the problem.
- Troubleshooting the errors and source of problems through technical procedures.
- Upgrading and improving software; adjusting mechanics, and engines; giving consultations about storage conditions; providing periodic monitoring; installing auxiliary equipment to ensure safe performance of the device.
- Providing replacements for broken, worn components,...

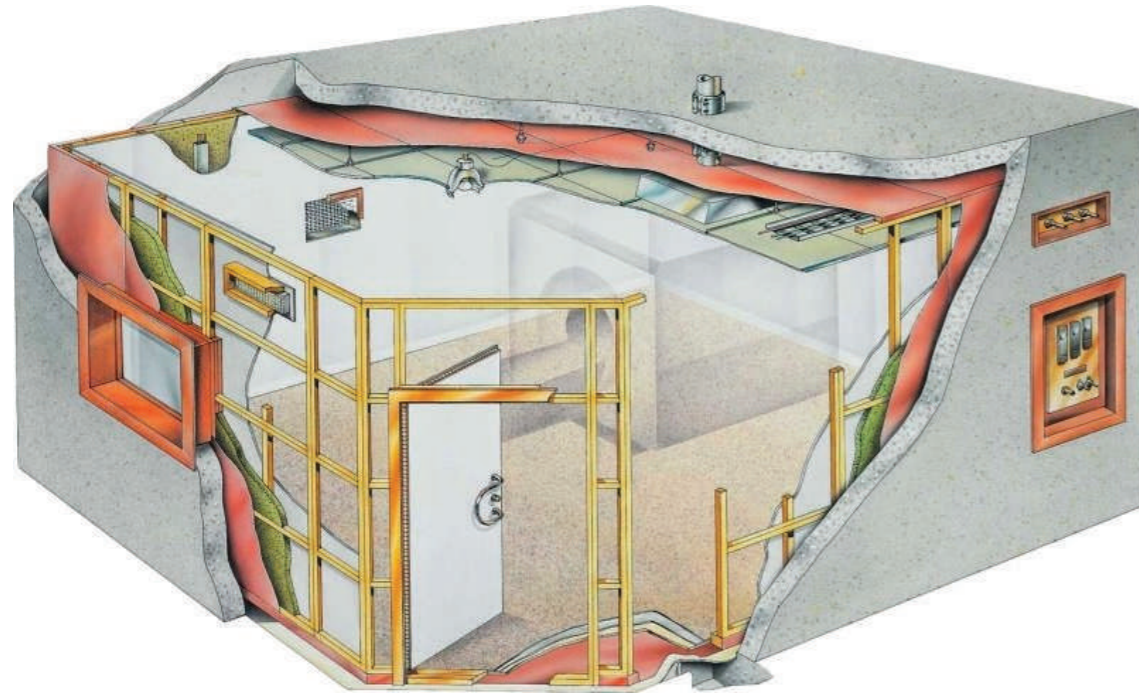

**1.3 Dismantling, packing, moving, installation, user manual services**

is the service of moving equipment to another installation site, or transferring it to another user, ensure that the equipment is operating smoothly and appropriately after it has been transferred to the installation location, meet professional quality requirements according to the standards specified by the manufacturer, and transfer to the user for efficient running. This includes consulting on installation requirements at the new place, developing detailed implementation plans for submission to the investor consider and approval.

- Conducting surveys, consulting and making blueprints organizing execution strategies requested by investors.
- Dismantling and packing following the protocol, standards, and demands of the manufacturers.
- Transporting equipment with specialized vehicles and tools, ensuring no damage to projects and equipment.
- Installing equipment following a protocol; adjusting and perfecting the quality of equipment according to the standard of the manufactures.
- Instructing on operation, storage conditions, and transferring technology to users and device managers. Ensuring that the appliances operate safely and follow a correct protocol.

## 2 DESIGN, MANUFACTURE, INSTALL & REPAIR RF SHIELDING ROOM

### Phòng chắn sóng RF

It is used to block unwanted radio frequency of the external environment from interfering with the operation of other equipment. Ensure that the equipment works accurately. RF Shielding room is used in the medical field for MRI, EEG machines,...

- **Importing and supplying materials and components specially used in building RF Shielding room.**
- **Processing, installing and completing the room.**
- **Maintaining and repairing during the course of RF Shielding room usage**

## 3 COMPONENTS & SPARE PARTS

- **Periodic spare parts** are components with a depreciating nature, wear and tear overtime, need to be periodically replaced.
- **Components, spare parts** are components that do not have the nature to require replacement according to time cycle, only replaced in the case of damage or breakdown.
- **Auxiliary equipment** are supporting components and spare part for main equipment, that ensure steady and safe operation.

X-ray tubes

Cold head - MRI

Compressor - MRI

## 4 MEDICAL DEVICES - CONSUMABLES

### • Medical devices:

Dry imager  
Fujifilm

MRI Airis  
Vento

DRGEM X-ray  
system

Arieta 50  
Ultrasound system

DR Fujifilm

DR Vivix

Endoscopy Devices  
Olympus

CR Konica

### • Consumables:

Contrast injection  
syringe

Medical films

## 5 INVESTING, RENTING - TECHNICAL CONSULTANT

- **Investing, mediating, and partnering in business**
- **Renting services**
- **Giving technical, specialized consultations**

*Thank you*
